EDUCATION & HONORS

Indiana University – Bloomington, IN

May 2026

- Bachelor of Science in **Cybersecurity & Global Policy**.
- Bachelor of Arts in **Criminal Justice**.

Academic Honors

- **Excellence Scholarship: Full-ride scholarship** by the Ministry of Education in recognition of exceptional academic merit.
- **Executive Dean's List (4 Semesters):** Distinction for academic excellence awarded to top-performing students.

INTERNSHIPS

Glenair, Inc – Los Angeles, CA

June 2026 - Present

Software Development Intern

- Designed and independently developed a FastAPI-based Intern Guide with JSON storage, centralizing onboarding resources, department information, and employee guidance for interns, HR, and managers.
- Built two FastAPI REST APIs, including a 20-endpoint superhero registry platform, using Pydantic, authentication, logging, error handling, Swagger, and pytest, passing all tests and supervisor reviews.
- Applied NIST 800-171 and CMMC Level 2 concepts by building a VMware enterprise lab with Active Directory, DNS, DHCP, Group Policy, and three domain-joined client VMs.

Public Defender's Office – Bloomington, IN

May 2025 – July 2025

Legal Intern

- Contributed to strategies in high-profile cases, including a murder trial and securing the dismissal of an F-1 felony charge.
- Synthesized court proceedings, body-camera footage, and case materials into concise analytical briefs, helping attorneys evaluate evidence, identify key facts, and prepare for hearings.
- Conducted precedent research using a subscription legal database, identifying relevant case law to support motions, legal arguments, and broader defense preparation.

New Leaf, New Life – Bloomington, IN

May 2024 – July 2024

Intern

- Created new webpages and updated digital content using HTML and CSS to improve user navigation and usability.
- Enhanced website functionality and content using HTML, CSS, and Python, creating a more accessible and user-friendly experience for staff and clients.

WORK EXPERIENCE

Kroger – Bloomington, IN

June 2025 – September 2025

Lead E-Commerce

- Led e-commerce operations by supervising 2–10 associates, coordinating order fulfillment and customer pickup, and training new hires on department procedures and service standards.
- Managed high-volume shifts of 350+ online grocery orders by prioritizing workloads, delegating tasks, and maintaining accurate and timely order fulfillment.

Academic Fairness Committee – Indiana University Bloomington

June 2023 – August 2025

IUB Judicial Committee

- Analyzed confidential cases to assess academic appeals to ensure fair application of university policies.
- Evaluated complex appeals by identifying procedural issues, recommending appropriate actions, and producing clear case summaries to guide committee decisions.

Research Assistantship with PhD Candidate – Indiana University Bloomington

January 2025 – July 2025

Data Analyst & Research Collaborator

- Analyzed quantitative datasets and meta-analytic research on adolescent delinquency, identifying behavioral patterns and evidence-based insights to support doctoral thesis conclusions.
- Synthesized interdisciplinary research on social influences and adolescent behavior, translating complex empirical findings into clear insights for ongoing research and analysis.

Innovation For Impact – Indiana University Bloomington

August 2024 – December 2024

Public Sector Innovation Researcher

- Partnered with U.S. Army stakeholders, conducting 44 interviews to identify communication vulnerabilities and operational requirements in military training environments.
- Translated stakeholder insights into a secure masked-communication prototype, presenting a practical solution designed to improve communication and operational security.
